Trailer Type Connection	Not Applicable

The vehicle specification section assists you with better understanding your vehicle's standard and optional equipment, via VIN decode processing. These processes are generally reliable, and providers work to continually improve their decoding. However, different VIN decode processors may show different specifications. If you have questions, please check with your vehicle's manufacturer. Dealers/sellers also report installed option information, which is provided when available.

Junk/Salvage/Total Loss

Source NMVTIS

This section discloses events related to events like junk, salvage and insurance total loss that have been reported to VINData History. Included are state DMV titles that show junk, salvage or similar brands, insurance total loss events and salvage auctions or junk yard disclosures. Events related to an auto dismantler, auto recycler or crush facility indicate that the vehicle has sustained major damage. A vehicle that has been received by a salvage auction or junk yard usually indicates major prior damage, however these entities also remarket undamaged vehicles. We recommend an inspection by a qualified mechanic.

Good news - no junk, salvage or insurance total loss events have been reported to VINData History.

Title Information

Source NMVTIS

This section identifies this vehicle's current and historic DMV titles reported as issued by date, indicating the state and reported mileage. Title brands that have been reported to VINData History are shown in the "Title Brands Reported" section below. Each title record represents a new title holder, duplicate title, lien release or other title event. Odometer readings are generally recorded when a new title is issued. This information reflects the title information on file with NMVTIS. For more information, please contact the state of title. We recommend an inspection by a qualified mechanic.

NMVTIS Consumer Access Product Disclaimer

The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that contains information on certain automobiles titled in the United States. NMVTIS is intended to serve as a reliable source of title and [brand](#) history for automobiles, but it does not contain detailed information regarding a vehicle's repair history.

All states, insurance companies, and junk and salvage yards are required by federal law to regularly report information to NMVTIS. However, NMVTIS does not contain information on [all](#) motor vehicles in the United States because [some states](#) are not yet providing their vehicle data to the system. Currently, the data provided to NMVTIS by states is provided in a variety of time frames; while some states report and update NMVTIS data in "real-time" (as title transactions occur), other states send updates less frequently, such as once every 24 hours or within a period of days.

Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company (or other appropriate entity) to be a "total loss" or branded by a state titling agency. Conversely, an insurance carrier may be required to report a "total loss" even if the vehicle's titling-state has not determined the vehicle to be "salvage" or "junk."

A vehicle history report is **NOT** a substitute for an independent vehicle inspection. Before making a decision to purchase a vehicle, consumers are **strongly encouraged to also obtain an independent vehicle inspection** to ensure the vehicle does not have hidden damage. The [Approved NMVTIS Data Providers](#) (look for the NMVTIS logo) can include vehicle condition data from sources other than NMVTIS.

NMVTIS data **INCLUDES** (as available by those entities required to report to the System):

- Information from [participating](#) state motor vehicle titling agencies.
- Information on automobiles, buses, trucks, motorcycles, recreational vehicles, motor homes, and truck tractors. NMVTIS may not currently include commercial vehicles if those vehicles are not included in a state's primary database for title records (in some states, those vehicles are managed by a separate state agency), although these records may be added at a later time.
- Information on "brands" applied to vehicles provided by participating state motor vehicle titling agencies. Brand types and definitions vary by state, but may provide useful information about the condition or prior use of the vehicle.
- Most recent odometer reading in the state's title record.
- Information from insurance companies, and auto recyclers, including junk and salvage yards, that is required by law to be reported to the system, beginning March 31, 2009. This information will include if the vehicle was determined to be a "total loss" by an insurance carrier.
- Information from junk and salvage yards receiving a "cash for clunker" vehicle traded-in under the Consumer Assistance to Recycle and Save Act of 2009 (CARS) Program.

Consumers are advised to visit vehiclehistory.bja.ojp.gov for details on how to interpret the information in the system and understand the meaning of various labels applied to vehicles by the participating state motor vehicle titling agencies.

VINData Products Consumer Access Product Disclaimer

This report, and any reliance upon it, is subject to [VIN Data Terms Of Service](#). If you obtained the report from a dealer, lender, or other company, the company has been provided with these Terms and Conditions and can share them with you.

A vehicle history report is **NOT** a substitute for an independent vehicle inspection. Before making a decision to purchase a vehicle, consumers are strongly encouraged to also obtain an independent vehicle inspection to ensure the vehicle does not have hidden damage.

Glossary

Information to help you better understand information provided to you in the VINData History report. Please see the report sections page, FAQ, terms of service and disclaimer for more information.

VIN 1FDXE4FN7SDD22720

General Terms

Recalls:
The vehicle's manufacturer, or NHTSA (National Highway Traffic Safety Administration) has determined that the vehicle has a safety or other defect that can affect the vehicle's safety or driveability. Recalls can be repaired at no cost at a manufacturer's franchise dealership.

Title:
Official state DMV document that identifies the vehicle, any lienholder and owner. Rules governing issuance are specific to each state.

Junk or Salvage event (from NMVTIS):
Vehicle was seen at a junk yard, wrecker, dismantler or crusher, or seen at a salvage yard or salvage auction. These vehicles can range from inoperable to fully driveable with little or no actual damage.

Odometer Reading:
Distance (in miles or kilometers) that the vehicle has traveled. Over time, the mileage reported should increase. Many vehicles are driven 10,000-15,000 miles a year; others more or less.

Event Date or Date Applied:
Date the event was reported to have occurred.
